

SCRAIL® SPLITLESS

SCRAIL® SPLITLESS

- Fine Thread SCRAIL® with a blunt “splitless” diamond point
- DIAMOND COATING for maximum holding power
- Optimized to work flawlessly in various wood species, e.g. soft wood like spruce and SYP
- Material: stainless steel A2 & A4, FasCoat®

DIAMOND COATING

The expansion elements in the DIAMOND COATING diminish the friction between the fastener & the wood material. As a result of this reduced friction the fastener destroys less wood fibers, allowing more contact surface which results in increased withdrawal values.

SPLITLESS DECKING WITH SCRAIL®

The SCRAIL® SPLITLESS was specially developed for fast installation of high-end decks. It has a blunt point to minimize the splitting of wood. For various requirements on corrosion protection, the SCRAIL® SPLITLESS is available in stainless steel or FasCoat®. For maximum holding power, the SCRAIL® SPLITLESS always comes with our patented DIAMOND COATING. Enjoy cordless decking in combination with the FASCO® F70G Cordless Strip Nailer.
